
KENNETH CLUFF

OBJECTIVE

IOS Developer

QUALIFICATIONS

- 4 years experience programming Swift
- 3+ years experience programming Objective C
- 2+ years experience managing aircraft technicians and mechanics
- 10+ years experience programming PL/SQL and T/SQL

COMPUTER LANGUAGES

SWIFT OBJECTIVE-C ORACLE PL/SQL T/SQL C#

EMPLOYMENT

Custom Software - Software Developer - January 2013 - Current

Swift, Objective-C, Core Data, Git, Localization, REST, Job costing

Teem - Sr. IOS Developer - April - September 2018

Cross functional teams, Swift 4, Agile, Scrum, Multi-Threaded apps, REST, Git, Jira, Slack

Built the ability to reserve desks in company's marquee application.

Autoliv - Sr. IOS Developer - August 2016 - March 2018

Swift 3-4, SOAP, REST, XML, Scrum, Localization, CallKit

Developed REST based application which loaded 25,000 + corporate phone book into iPhone caller ID

Solution Stream - Sr. IOS Developer - June 2014 - May 2016

Objective-C, Swift 1-3, Job Cost, Agile, REST, GCD, Localization

Implemented white-box iOS app rebranding process that reduced LOE from 80 to 4 man-hours

Built numerous localizable applications

Stem Innovation - IOS Developer - June - September 2013

Objective-C, Automated Unit Testing, Multi-threaded apps, REST

Built scriptable unit tests using Terminal application for continuous integration

Advanced MD - IOS Developer - January - June 2013

Objective-C, Agile, SOAP, XML, Cross functional team

Cooperated in building a user definable reporting interface. Drag and drop UI design.

Theradoc (Premier) - Data Integration Engineer/Manager - August 2007 - January 2013

Tech lead and Development manager, PL/SQL, ETL, HL7, Agile

Successfully completed more than 70 unique demanding software projects with zero-tolerance for errors.

Implemented data transformation process which reduced ETL processing time an order of magnitude

Proposed and implemented an ETL development process which converted a cost center to a profit center by reducing implementation duration nearly 50%

MILITARY SERVICE

US Air Force

- Supervised 40 military and civilian jet engine mechanics
- Assistant manager of 200+ technicians and mechanics supporting 24 multi-million dollar aircraft
- Earned an Excellent Rating in an annual readiness exercise
- Earned an Outstanding Rating in an annual nuclear weapon security inspection
- Achieved 100% aircraft availability during Bright Star 85 under harsh desert conditions

PUBLISHED APPS

AdvancedMD - I was on the team which built the drag and drop report writer of this app

CardFiler - This is the oldest app I've written in the app store.

EventBoard - I built the desk reservation system and the infrastructure supporting the map rendering feature.

SimpleConsultant - My latest shipping app.

Modere - I architected the redesign and internationalization of, built, and shipped this app from 2014-2016

SKILLS

Swift 4	JSON	Instruments
Objective-C	Operations	CocoaPods
Multi-threading	TDD & Unit Testing	C#
REST API	XML	Localization
Native Apps	JIRA	CoreLocation
xCode	Agile Development	Apple Watch coding
CoreData	UIKit	Lead Developer
Git	CloudKit	HL7
Self Starter	Notifications	Redux
Team Player	Job-cost Estimation	Crashlytics

EDUCATION

BRIGHAM YOUNG UNIVERSITY - BA, COMMUNICATIONS

COMMUNITY SERVICE

- Volunteer, ecclesiastical unit, Pusan, South Korea
- Volunteer, Assistant Scoutmaster BSA
- Volunteer, instructor, men's service organization

INTERESTS

- Ballroom Dancing, (American style)
- Cross-country road biking
- SpaceX
